

It can be challenging for parents and carers to know whether children are spending too much time on their devices. Furthermore, it's even more of a challenge to know whether a child is addicted to the internet and social media. As technology is becoming more pervasive, children and young people are experiencing tech-related dependencies. Do we as parents and carers have the knowledge to identify and support children and young people who may be developing an addiction to their devices?

of parents said they thought their children spent too much time in front of screens

What parents need to know about SCREEN ADDICTION

SMARTPHONE ADDICTION IS A RECOGNISED HEALTH CONDITION

Children as young as 13 are attending 'smartphone rehab' following growing concerns over screen time. There are now help centers in the UK which deal with screen addiction for children and adults showing the seriousness of device addiction.

IT CAN CAUSE SLEEP DEPRIVATION

CONFIDENCE, SUPPORT & ACCEPTANCE

The Children's Onmissioner report Life in Likes, explored how children aged 8-11 are using social media today. It showed that children are using their devices to speak to their online friends about their problems and seek acceptance and support, removing face to face interactions.

Top Tips for Parents

LIMIT SCREENTIME

coday's digital age, technology is an important
of a child's development so completely banning
from their device will mean they are missing out
lot, including conversations and communication
their friends. Rather than banning them from
y their devices, we suggest setting a screen time
Work out what you think is a suitable and healthy
ount of time for your child to be on their device
eek. Remember that your child may need to use
ees for their school homework so only set screen
so on recreational time on their device. Once you
tablished this, have the conversation with them to
why you are implementing a screen limit. There wil
sin your child's friendship group who will not have
inities set and will be sending messages when they
do not have access to their phones.

ENCOURAGE ALTERNATIVE

It may seem like an obvious solution, but encouraging the play with their friends, read a book, or play utdoors will help them realise they can have fun with their device. Playing football, trampolining, camping ing for a walk or swimming are all healthy replacement for screen time. Try to join them in the outdoor activities to show your support.

LEAD BY EXAMPLE
Children model their behavior on their peers, so if their parents are constantly on their device, they will see this as acceptable. Try limiting your own screen time and follow the same rules you have set for them. If you have asked your child to not use their device at the table, make sure you don't. Try setting house rules that the whole family abide by.

LESS TIME MEANS LESS
EXPOSURE
ere are many risks associated with devices, such as
rbullying, grooming, sexting, viewing inappropriate
tetc. Less time spent on a screen means that a child
will be less exposed to these risks.

MOBILE-FREE MEALTIMES

Have you tried to settle your child by giving them a table at the dinner table or restaurant? This may seem like a quick fix to calm them down but in reality, it is encouragi them to use their device as a distraction from conversation and dealing with their emotions. We suggest removing a technology from the dinner table and having conversation with your family about how their day has been.

REMOVE DEVICES FROM THEIR BEDROOM

19 a rule about removing devices from bedrooms will be your child to get the sleep they need and be more sed the next day at school. 20% of teenagers said that wake up to check their social network accounts on devices. Sive hy having a device switched off in their bom, they may be tempted to check for notifications.

53% of children aged 3-4 go online for nearly 8hrs a week

79% of children aged 5-7 go online for nearly 9hrs a week

94% of children aged 8-11 go online for nearly 13.5hrs a week

99% of children aged 12-15 go online for nearly 21hrs a week
